**RE: Scott County Jail and Law Enforcement Center Project**

Dear Bob and Joe:

While it may be a bit late in coming this letter is to both thank and commend you and the entire Pauly Jail Staff for the outstanding work and exceptional service you provided to Scott County in the planning and construction of our Jail and Law Enforcement Center.

As you are aware, Scott County is one of the fastest growing counties in Minnesota and the nation and, as such, we seem to be in a constant state of construction. Over the past eight years we have constructed or remodeled more than 400,000 square feet of county facilities and the Jail / LEC project was by far the largest and most complex.

From the early concept and planning right through to the completion of construction and occupancy you and your staff were always there to provide insight and assistance that truly proved to be invaluable to this project.

The Pauly Jail Building Company team is one of the most professional, knowledgeable and reliable groups with which I have ever had the pleasure to work. The knowledge, skills and commitment from you and the Pauly Jail team was a driving factor in the success of this project and its being completed – on time and more than one million dollars under the approved budget.

In 1957 Scott County chose the Pauly Jail Building Company to build its jail and nearly fifty years later we again chose the Pauly Jail team. In both instances the citizens of Scott County received a high quality project, exceptional service, and tremendous value. I want to take this opportunity again to thank you and your team and to let you know that I would not hesitate to recommend Paul Jail to any organization that is considering a jail project.

Sincerely,

Gary L. Shelton, Deputy County Administrator  
Scott County, Minnesota
