Re: Letter of Reference

Dear Joe,

The new Dunklin County Jail is the largest building project our County has been involved in starting. As you know, I was very skeptical in the beginning. Even though our project was unique, you were not once deterred from competing for our business.

Pauly Jail has been there for us. We were presented with many obstacles such as the weight of the steel cells, drastic budget revisions, the separation of pods, and the uniqueness of our project.

I would be glad to recommend your company to any organization that is considering a Law Enforcement project. Thank you for your assistance and continue the good work as we put the final touches on our 172 bed facility.

Sincerely,

Don Collins
Dunklin County Presiding Commissioner
